

## Live from the North American Manure Expo

**August 16, 2018**

2:30 pm (eastern), 1:30 pm (central), 12:30 pm (mountain), 11:30 am (pacific)

This webinar will highlight posters from the student poster competition at the North American Manure Expo that showcase recent advancements in manure-related research. We will talk with the judges for the competition about gaps in the manure industry that are being filled with ongoing research, and where a stronger knowledge base is still needed. We'll also be interviewing a variety of Expo attendees, including crop advisors, Extension representatives, manure applicators, and NRCS to explore what they take away from the Expo and what they are looking for when during equipment demonstrations.

*This webinar will not be submitted for CEUs for the certified crop advisor or the ARPAS programs.*

### How Do I Participate?

On the day of the webinar, go to [www.extension.org/58813](http://www.extension.org/58813) to download the speaker's power point presentations and connect to the virtual meeting room. First time viewers should also follow the steps at:

[www.extension.org/8924](http://www.extension.org/8924).
