Purpose of Conference

The focus of W 2 W is to integrate research, education and extension efforts related to managing environmental impacts of livestock and poultry production.

We are striving for a multidisciplinary conference to “advance sustainability in animal agriculture”

---

---

---

---

---

---

---

---

Objectives

- Connect Livestock and Poultry Professionals with the Nations best science and education materials
- Recruit new members to the LPELC community
- Add to our library of electronically available resources

---

---

---

---

---

---

---

---

### Deadlines and Dates

- Registration:

---

### Options for Participation

- Monday March 30 – Arrival and Registration
- Tuesday March 31 – Full day and salmon bake
- Wednesday April 1 – Oral sessions and tours
- Thursday April 2 – Oral sessions and workshops
- Friday April 3 – Oral sessions

---

---

---

---

---

---

---

### Salmon Bake and Native American Dance

---

---

---

---

---

---

---

- Tour 1 – Anaerobic Digesters and Nutrient Recovery

---

---

---

---

---

---

---

Tour # 2

---

---

---

---

---

---

---

---

Tour # 3

---

---

---

---

---

---

---

---

Tour # 4

---

---

---

---

---

---

---

---

### Special Session Highlights

- Changes, Challenges, and Opportunities for Animal Agriculture – Climate Change Focus
- Western Dairy Air Quality Symposium
- Environmental Management of Equine Operations
- Working Together to Improve the Effectiveness of Phosphorus Indices
- Identifying and Managing Sources of Legacy Phosphorus
