From Innovation to Implementation

April 12–16, 2027

Hilton Raleigh North Hills – Raleigh, NC

YOU ARE INVITED TO PARTICIPATE

Waste to Worth 2027 welcomes oral, poster, panel, and workshop presentation abstracts focused on applied solutions related to animal manure management and protecting the environment.

- Submissions should align with one or more of the general areas of emphasis
- Graduate students are encouraged to submit and participate in a poster presentation competition

To submit an abstract go to:
go.ncsu.edu/w2wabstracts

For more information, go to:
<http://wastetoworth.org>

WHO WE ARE

Waste to Worth 2027 is the flagship event of the Livestock & Poultry Environmental Learning Community – a national network of agricultural professionals and practitioners advancing manure management and minimizing the environmental impacts of livestock and poultry operations.

Waste to Worth Conferences emphasize applied content and focus on solutions.
